### Your opinion counts!

05/11/2010

Your success is our focus! Only if you are successful, we also will have success. Due to this it is very important for us to know your needs and expectations. For this reason we want to invite you to participate in our customer satisfaction survey. Because your feedback is important to us to meet your requirements in a faster way. The survey will be conducted by an independent research institute which guarantees 100% anonymity.

#### The active participation will be rewarded!

We all aim for sustainability in all fields and of course we all deal with the subject of climate change. Therefore we have decided to support the organization PLANT FOR THE PLANET and promise to make a donation of one tree for each participant in our survey.

This worldwide initiative was originated in 2007 by Felix Finkbeiner, then 9 years old, who gave a presentation at school about the climate change with the vision children could plant **1,000,000 trees** in every country and through this reduce the greenhouse gas emissions. In Germany the millionth tree was planted together with the world's ministers for environment on 4th of May 2010. In the meantime various children joined as active members in further 72 countries worldwide. We want to support this movement —according to the **PLANT FOR THE PLANET** slogan „Stop Talking. Start Planting“ we promise to spend one tree per attendee. It would be great if you not only help us to optimize our business, but also support this important project.

Further information on this initiative is available on the official [website](#).
